

## **Learn Basic Computer Skills in an Adult Friendly Environment**

### **Cyber Cafe Spring/Summer 2017 Computer Class Schedule**

Following are the initial classes scheduled for the Spring and Summer of 2017. Things are changing with the introduction of and updates to Windows 10 so consider learning more about the latest operating systems and the new programs and Apps that are available. Additional classes and seminars will be announced over the next few months.

#### **One on One Individual Training**

We are introducing One on One Individual Training (2 hrs.) BY APPT. ONLY: “E-MAIL, WORD, EXCEL, POWER POINT AND Internet BROWSING”, Rani Varanasi, Instructor – Availability from May through September 2017. Call to schedule your personalized training and to get your specific questions answered. (\$35 donation per session).

#### **“INTRODUCTION TO WINDOWS #10”**

**One day, 3 hour seminar, Thursday May 18th, 1—4 PM, Dan Feinberg, Instructor**

Learn the basics of the latest and the greatest Windows Operating System yet. Windows 10 is fast, easy to use and includes many new amazing features. Learn the basics of setting it up and using it as well as learn the new Edge net browser and Cortana which are included with Windows 10. Note, we also offer a more detailed full 3 day Windows 10 class. (\$35 donation for the one day seminar, \$75 for the three day class)

#### **“iPhone, Basic use and features”**

**One day, 2.5 hour seminar, Wednesday June 14th 1– 3:30 PM David Wong Instructor**

**iPhone Basics:** Participants will learn the basics on using an iPhone and covering the necessary functions an iPhone user needs to know. They will become more familiar with how iOS (mainly iOS 9) works. They will learn everything from communicating with their friends and family, to swiftly searching the internet, to discovering some of the amazing apps and features hidden within the phone. (\$35 donation)

#### **“Android (Droid) Phone Basic Use and Features”**

**One day, 2.5 hour seminar, Tuesday August 8th 1-3:30 PM David Wong Instructor**

**Android Basics:** Participants will learn how Android Phones work. They will become more familiar with the more popular versions of the Droid operating system and how to utilize the main functions of the phone. This includes learning how to use email, surf the internet, and managing their phone using the different settings available. (\$35 donation)

## COMPUTER MAINTENANCE & SECURITY BRIEFING”

(1-day seminar) Thursday August 24th, 1:00 PM – 3:30 PM, Dan Feinberg, Instructor

Learn how to set up and then keep your computer running well for best performance and then maintain it. Remove and keep unwanted and unneeded materials from your computer and get and keep it running speedily and like new. This seminar is updated to include Windows 10. It no longer includes information specific for Windows Xp or Vista. This class will also include an updated computer use security briefing. (\$35 donation)

### COMPUTER HELP LAB – Dan Feinberg, Ed Vignone

As Needed, call to check availability

Course Description: Does your computer seem slow? Locking up?...In general, having problems running everyday tasks? We can help you. Bring in your computer (not your desktop monitor), and we will do our best to get it set up correctly and running like new. Computers must have Windows 7, Windows 8.1 or Windows 10 installed. CALL FOR AN APPOINTMENT TIME. (\$35 donation)
